MFS Technology (S) Pte Ltd Newsletter

Jan 2015

Mr. GL Cheng as MFS Chief Technology Officer

With MFS's vision and strategic business direction to become Innovative Partner-of-Choice for Printed Circuit Applications (PCBs, FPCs, Rigid-Flex), the company has created a position for Chief Technology Officer (CTO) to support the initiative.

Effective 1 January 2015, GL Cheng is our Chief Technology Officer. He is responsible for exploring new technologies to develop into new products, overseeing research projects, and providing reliable technical assessments of potential mergers and acquisitions.

"MFS would like to work with any company who are having the same interest for potential collaboration. Please share your contact details, we will discuss with you and plan for the best"
